

Simplified Billing (SB)

The copier printer industry thrives on confusion often overwhelming a client with literally hundreds of invoices. Clients often process these invoices without properly vetting the significance. Simplified Billing was designed to replace a very confusing method of billing with three invoices a year that has the following characteristics...

- All Inclusive Cost per Print Blanket agreement that has no minimums and no maximums. You simply pay for what you use.
- Five Year Cost controls

The image below reflects the summary page of our year end Simplified Bill. Note how each building is broken out for both black and color. Showing both volume and cost.
